Your feedback is important to us - please help us make this the best product possible. Keep in mind that we are continuing to work on this application and the product may change in the future.

Update Highlights for Release 2.0.0

- Selection of ADPD slots. Both slots can be configured independently in mixed mode
- Extremely simple example for the driver bring up
- Define the macro "ADPD_SPI" in *AdpdDrv.h* file to run on ADPD107 device. Refer ADPD_Driver_M3_IntegrationGuide.pdf section 3.2 for details.

Known Issues in Driver/Application

- None
